### **Visualizing Environmental Science: Linda R. Berg ...**

A really good book as far as textbooks go . . . this was interesting enough in the way that it presented the information that I wasn't dying of boredom and I learned quite a bit that I don't think I would have been able to get anywhere else. I can understand why some sort of Environmental Science ...

The new third edition provides environmental scientists with an approach that focuses on visuals rather than excessive content. The streamlined coverage discusses the basic science so students walk away with a strong understanding of the facts. New Think Critically and Data Interpretation features encourage them to analyse visuals and graphs to place information in context.
